

Pipeline Project Career Opportunities

Aboriginal Pipeline Coalition Employment, Training and Business Opportunities

November 20-21, 2007
Whitehorse, Yukon

Stu Mackay
Dean of Professional Studies, Yukon College

Overview

- **Pipeline will require a significant amount of skilled and talented labour**
 - **Some of the jobs will be specific to the pipeline**
 - **Many of the skills are transferable to other sectors of the economy, e.g., trades, technicians, administration, management, support (cooks, telecom, health, etc.)**
 - **Encouraging individuals to look at these career paths will not only increase their employability on a pipeline but provide long-term careers**
-

Overview

- **Provided relevant education and training in the North for over 40 years**
 - **Successfully responded to labour market demands of a variety of economic initiatives**
 - **Offerings are flexible, accredited and can be quickly adapted**
 - **Developing partnerships is one of our strengths**
-

Conclusions

Pipeline will provide excellent employment opportunities but may be for a limited time.

Encourage individuals to look at careers that will be needed on the pipeline but also in other areas of the economy.
